Wilsonart(R) 600 Adhesive

MSDS Number: 16396 Revision Date: 4/5/2005

PRODUCT AND COMPANY IDENTIFICATION

Common Name Wilsonart^(R) 600 Adhesive

MANUFACTURER WILSONART INTERNATIONAL, INC.

P.O. BOX 6110 - 2400 WILSON PLACE

TEMPLE, TX 76503

INFORMATION PHONE: 800-433-3222 (USA)

Trade Name WA 600 Adhesive

Revision # 17

2

MATERIAL USES Adhesive for laminate.

In Case of Emergency Contact:

CHEMTREC: 800-424-9300 (USA)

703-527-3887 (INTERNATIONAL)

COMPOSITION/INFORMATION ON INGREDIENTS

Name CAS# % by Weight

Toluene 108-88-3 15 - 40

Methyl ethyl ketone 78-93-3 5 - 15

V.M.& P. Naphtha 64742-89-8 40 - 60

(Stoddard Solvent)

3 HAZARDS IDENTIFICATION

Route of Entry: Skin, eyes, and respiratory tract.

Target Organs: Chronic overexposure may effect the central nervous system, kidneys, and/or liver or cause irregular

heartbeat. Peripheral nervous system effects.

Inhalation: Inhalation vapors may cause dizziness, light-headedness, nausea, headache, loss of consciousness

and death. Material is irritating to mucous membranes and upper respiratory tract. Can be fatal if inhaled or ingested. Narcotic effect; may cause nervous system disturbances. Central nervous system

depression and peripheral neuropathy (numbness in limbs).

Skin Contact: May cause skin irritation. Permeator (absorbed through intact skin).

Eye Contact: May cause eye irritation.

Ingestion: Not an expected route of entry. May be fatal if swallowed.

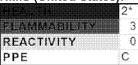

Wilsonart(R) 600 Adhesive

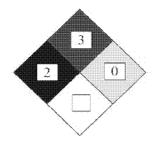

Page 2 of 7

MSDS Number: 16396 Revision Date: 4/5/2005

HMIS (United States):

NFPA (United States):

*See Section 11.

WHMIS (Canada): B2, D2A.

4 FIRST AID MEASURES

Inhalation: Remove patient to fresh air. If patient is having difficulty breathing seek immediate medical attention. If not

breathing, clear airway and start mouth-to-mouth artificial respiration (or use bag-mask respirator). Get

immediate medical attention.

Skin Contact: Wash affected areas with soap and water. If irritation develops, seek medical attention.

Eye Contact: Flush eyes with water for 15 minutes. Remove contact lenses prior to water flush. Seek medical attention.

Ingestion: Give patient 3 - 4 glasses of water. DO NOT induce vomiting. Get immediate medical attention. DO NOT

give anything by mouth to an unconscious person.

Note to physician:

Sudden death due to ventricular fibrillation has been reported from acute inhalation in chronic solvent abusers. Treat patient supportively. Life support measures should be provided because CNS depression, cardiopulmonary failure, and metabolic acidosis have been reported in massive overexposures.

5 FIRE FIGHTING MEASURES

Flash Point: -6.1°C (21°F)
Flash Point Method: Closed Cup

Autoignition Temperature: Lowest known value is 404 °C (759.2 °F, for methyl ethyl ketone).

LEL: 2% UEL: 13%

General Hazard:

Flammable liquid, insoluble in water.

Highly flammable in presence of open flames and sparks. Flammable in the presence of heat and/or oxidizing materials. Risks of explosion of the product in the presence of mechanical impact is not available.

Risks of explosion of the product in the presence of static discharge: Static discharge may serve as an ignition source to closed containers of product.

For small spill: use dry chemicals, CO2, or alcohol foam.

Wilsonart(R) 600 Adhesive

Page 3 of 7

MSDS Number: 16396 Revision Date: 4/5/2005

For large spill: use dry chemicals, CO2, or foam. Cool containing vessels with water jet in order to prevent pressure build-up, autoignition or explosion.

Firefighting equipment:

Use self contained breathing apparatus with a full face piece and pressure-demand or other positive-pressure mode.

Special Remarks:

Container explosion may occur and fire conditions or when heated.

All electrical equipment in the area must be rated for flammable liquids (Dispensing - Class I, Division 1; Storage - Class 1, Division 2). Ground all containers of this material.

Hazardous products of combustion include carbon oxides (CO, CO2).

6

ACCIDENTAL RELEASE MEASURES

Small Spill and Leak: Absorb with an inert material and place in an appropriate waste disposal container.

Large Spill and Leak: Flammable liquid insoluble in water. Eliminate all ignition sources. Stop leak if without risk. Prevent entry into sewers, basements or confined areas; dike if needed. Absorb with an inert material and put the spilled material in an appropriate waste diposal container. Do not use metal tools or equipment.

HANDLING AND STORAGE

Handling Precautions: To avoid fire or explosion, dissipate static electricity during transfer by bonding and grounding

containers and equipment before transferring material. Use explosion-proof electrical

(ventilating, lighting and material handling) equipment. Avoid breathing vapors. Handle in well ventilated areas. After handling always wash hands thoroughly with soap and water. Avoid

contact with skin or eyes. When using do not drink or smoke.

Storage Requirements: Flammable materials should be stored in a separate safety cabinet or room. Store and use

away from heat, sparks open flame, or anyother ignition source. Keep in a cool, well ventilated

area. Ground all equipment containing material. Keep out of reach of children.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations

of vapors below their respective threshold limit value. Ensure that a working eyewash and

safety shower are in the work area.

Protective Equipment: Wear splash goggles or safety glasses with side shields, synthetic apron, and neoprene or

rubber gloves. In case of insufficient ventilation, wear an approved (NIOSH) repirator with

organic vapor cartridges with dust/mist pre-filter.

Exposure Guidelines/Other: Product Name Exposure Limits

Toluene ACGIH TWA: 100 ppm OSHA PEL:200 ppm

300 ppm CL

VM & P Naphtha ACGIH TWA: 100 ppm (Stoddard Solvent) OSHA TWA: 500 ppm Methyl ethyl ketone ACGIH TWA: 200 ppm

Consult local authorities and local regulations for exposure limits

9 PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Colorless to light yellow liquid

Physical State: Liquid Boiling Point: 78.889°C (174°F)

Wilsonart(R) 600 Adhesive

Page 4 of 7

MSDS Number: 16396 Revision Date: 4/5/2005

Odor: Solvent-like (Strong) Freezing/Melting Pt.: May start to solidify at 8.63 °C (47.5

°F) based on Methyl ethyl ketone.

pH: Not available Solubility: Insoluble in water Vapor Pressure: 185mm of Hg (@20°C) Spec Grav./Density: 0.841 (Water=1)

Vapor Density: 3.14 (Air=1, toluene).

VOC: 5.62 lbs/gal (674 g/L)
Molecular Weight: Not applicable

Viscosity: 1200cps (Brookfield Viscometer)

Percent Volatile: 79%

Molecular Formula: Not applicable

10 STABILITY AND REACTIVITY

Stability: This product is stable when used as intended.

Conditions to avoid: Avoid heat sources, open flames, and sparks.

Materials to avoid (incompatability): Reactive with acids, alkalis, combustable materials, oxidizing agents, reducing

agents.

Hazardous Decomposition products: Products of combustion include carbon oxides (CO, CO2).

Hazardous Polymerization: Will not occur.

11 TOXICOLOGICAL INFORMATION

Acute Toxicity:

Warning: THE LC50VALUES ARE ESTIMATED ON THE BASIS OF A 4-HOUR EXPOSURE.

Acute oral toxicity (LC50): 2600 mg/kg [Rat]. (Toluene)

Acute dermal toxicity (LC50): 6480 mg/kg [Rabbit]. (Methyl ethyl ketone).

Acute toxicity of the vapor (LC50): 1400ppm 4 hour(s) [Rat]. VM & P Naphtha (Stoddard Solvent).

Chronic toxicity:

CARCENOGENIC EFFECTS: Not classifiable for human or animal.

MUTAGENIC EFFECTS: Classified none for human.

TERATOGENIC EFFECTS: Classified PROVEN for human.

DEVELOPMENTAL TOXICITY: Classified Development toxin [PROVEN] [Toluene].

Causes damage to the following organisms: kidneys, nervous system, liver, upper respitory tract. Peripheral

neuropathy (numbness in limbs). Can cause CNS depression.

Toluene has been reported to have caused spontaneous abortion in women that intentionally concentrated and inhaled its vapors.

12 ECOLOGICAL INFORMATION

Ecotoxicity Not available BOD5 and COD Not available Biodegradable/OECD Not available

Toxicity of the Products of

Biodegradation Not available

Special Remarks on the

Products of Biodegradation No additional remark

Wilsonart(R) 600 Adhesive

MSDS Number: 16396 Revision Date: 4/5/2005

13

DISPOSAL CONSIDERATIONS

Spilled, contaminated, or waste material should be put into a suitable container and handled according to local, state,/provincial, and federal regulations. Contact a qualified waste management company in your area for assistance. Empty containers should be either reconditioned by CERTIFIED firms or properly disposed of by approved firms. Disposal of containers should be in accordance with applicable laws and regulations.

"Empty" drums should not be given to individuals. Serious accidents have resulted from the misuse of "emptied" containers. Residual vapors in the containers may be explosive. Do not cut, weld, or braze these containers.

Dispose of in accordance with Federal, State, and local regulations.

14

TRANSPORT INFORMATION

DOT Classification - DOT CLASS: 3 (Flammable liquid)

Proper Shipping Name - Adhesives

Markings - None

Packaging instructions - Consumer Commodity, ORM-D (quarts and gallons); Adhesives, 3, UN1133, PG II (containers larger than one gallon)

Marine Pollutant - Not a marine pollutant.

Special Provisions for

Transport-- None

ADR/RID Classification -- Class 3: Flammable liquid A.

IMO/IMDG Classification -- Class 3.2: Flammable liquid (Intermediate flashpoint group of liquids having a flashpoint of -18°C (0°F) up to, but not including, 23°C (73°F) c.c.).

ICAO/IATA Classification -- Class 3: Flammable liquid.

15

REGULATORY INFORMATION

U.S. Federal Regulations

TSCA 8(b) inventory: All ingredients are listed.

SARA 302/304/311/312 extremely hazardous substances: No products were found.

SARA 302/304 emergency planning and notification: No products were found.

SARA 302/304/311/312 hazardous chemicals: Toluene

SARA 311/312 MSDS distribution - chemical inventory - hazard identification: No products were found.

SARA 313 toxic chemical notification and release reporting: Toluene; Methyl ethyl ketone

Clean water act (CWA) 307: Toluene

Clean water act (CWA) 311: Toluene

Clean air act (CAA) 112 accidental release prevention: No products were found.

Clean air act (CAA) 112 regulated flammable substances: No products were found.

Clean air act (CAA) 112 regulated toxic substances: No products were found.

International Regulations

EINECS

VM&P Naphtha (254-192-2)

Methy ethyl ketone (201-159-0)

Toluene (203-625-9)

WHMIS (Canada): B2, D2A

DSCL (EEC)

R11- Highly flammable.

R20- Harmful by inhalation.

R66 Repeated exposure may cause skin dryness or cracking.

International Lists

Australia: Toluene; Methyl ethyl ketone

China: Toluene
